ST. VALENTINE'S DAY

TO YOU KNOW how St. Valentine's Day was named and why we D send Valentines on that day?

Hundreds and hundreds of years ago, during the time of the early Romans, the people were preyed upon by wolves. And once a year, during the month of February, a festival called Lupercalia was held in honor of Lupercus, the wolf destroyer. The Seroes of this occasion were the men who had killed the greatest number of wolves in their community. And it was the custom at this time for all the young people to draw lots for their partners for the year.

Centuries later the fourteenth of February was a 'chraied in England and France as St. Valentine's Day.

St. Valentine was a pricet who was put to death in Rome with the early Christians about the year 270. Later the Church decreed that he should become a Saint. All the early pages rites were changed to Christian feast days, and Lupercalla became St. Valentine's Day, as his day came nonrest the time of the old Roman celebration.

St. Valentine's Day has come on down through the ages and the custom of young people casting lots for partners has taken the charming form of Valentines.

So to be truly in keeping with the old old practice of St. Valentime's Day your Valentines should be as lovely and leving as you can possibly make them.

If you are thinking of having a Valentine party, there are so many novel ideas which may be used in the preparations. In the refronhment line little sandwiches, cut in the shape of hearts, with gayty colored anniwich fillings, may be used. And on the other hand, the cake may be elaborated upon, for instance: a light square cake, covered with white Icing and dotted with tiny candy hearts - the kind everybody knows with "I love you" and "You're my giri" written on them. Cookies, too, may lie made into heart shapes and covered with red icing. Then, of course, table favours galore, may be found in any of our stationery stores.

Included in your games you may use the following, which creates lots of fun for the kiddles, and even the "young-minded" grownups. Place a large box (hat box) in the middle of the room tied with a big red bow, and in the top make a slit. Each guest may be given paper and colored pencils to make a valentine, to be addressed and dropped in the box. Then elect some one to act as the mailman. There will be many good laughs in this game.

TRADITIONAL PEASANT DESIGNS ARE ADAPTED FOR NEWEST GIRDLES

Hand-embroidered Hungarian linen Bett in Scottle dog design,

Woman of North America like to embroider as a postime. But in European countries the poerer classes do exquisite needle work for a living.

Every nation has some form of art particular to its people. And copies of Europe can be identified topic of Hungary, that little nation in southern Europe, has its own peculiar charm, and is famous throughout the world.

Weise of Budspost, Hungary, has adapted the traditional patterns of the pessents and styled them for the newest in belts. Skilled peanants, both men and women, have transferred the gay derigns to linen and handloomed jule helts for American women to use as bright accepts for dark dresses.

Bright Flower Embrokery

The hand-loomed jute belts that are perfect with suits, sweaters and light woolen frocks are also embroidered in bright yarns. Gay dogs and geometric patterns are featured on those, as shown in the model at the left, and these too are also finished with the wooden buckles.

These belts are washable and of fast colors. They are being worn in the south and on cruises, and will be seen with many a pretty spring and summer frock.

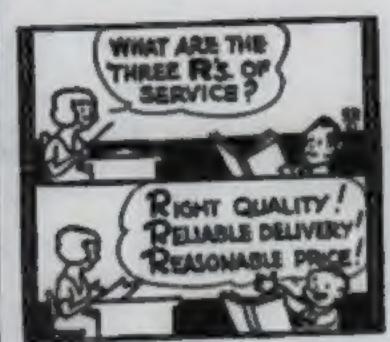

Speaking of the waistline, as one does when talking of belts, the new blousing below and above it has caught on in the negligee field. It is effective in negligee, house coat and lounging fashion stylings, giving bodiess a soit, billowy quality that is very attractive. Bleeves are also following the seme trend.

Negligee designers think that this particular style is more solted.

BOMBING THE ORPHANS

The horrors of war reached a peak of suffering, when an air raid by insurgent aviators over the Spanish city of Barcelona, killed the way he spent the event some 350 people, of whom 158 were orphan children who had fled for refuge to the basement of a church. Underneath those sacred Looks as if they would have to conceal the fact that walls, dedicated to one who died to bring the world peace, there fell those deadly explosives that brought the silence of eternity to so many young lives.

When will men learn that such acts go contrary to all the best instincts of the race, and that they simply create new hatreds to fill the world with strife?

ALCOHOL AND ACCIDENTS

How much alcohol can a person consume without affecting the power to drive an automobile safely? Many people behind the wheel have had enough of this stimulant to cloud their judgment. They are filled with a false confidence in their ability. If they see a narrow gap in the line ahead, they feel a certainty they can run the car into that gap, that they would not feel if their minds had

their usual alertness. Many intemperate men are driving cars who would never be permitted to operate a everything. railroad locomotive. Some power should put its strong hand on the drunken driver, and self it. tell him to let some sober person take the wheel until he can control himself.

27 YEARS OF SCOUTING

Twenty-seven years ago on Forusary 8, the Boy Scouts were first chartered under the District of Columbia. Now the organization has swept through United States and Canada as a great national movement.

It was once thought you could guide and inspire youth by lecturing them. The youngsters of the present day are not keen on moral lectures, and the inspiration has to be given them in a kind of sugar coated pill. The fascinaling pursuits of Scouting are interesting to them. They become so attached to the movement, that they learn things they ned to know about good citizenship and conduct.

If the boys of Grimsby could be enisted! in such organizations, our town would be this

" FITHE hest-looking car on the street!" I That's what all the neighbors say about our new Chevrolet. And that's what we think, too.

"Just look at the thrilling streamline of the new all-steel body. And notice how, by rounding the radiator grille and adding those horizontal hood louvres, Chevrolet has modernized the whole

"Then take the interior. It's so neat and liclored' it makes me think of our own appg room . . . fine upholstery . . . lovely intments . . . everything in taste.

And remember, Chevrolet reinforces all this beauty with roof, walls and floor of steel . . . with all windows of safety glass! "I don't know much about mechanical details but, I drive our Chevrolet and from a woman's point of view, nothing could be easier to handle or safer. Finally, (I look after the family budget), I'm sure nothing could be easier on the pocketbook!"

You, too, will be proud to own this new Chevrolet. Come to our showrooms today-see it, drive it, and compare prices before you buy.
